Powerfully simple

Designed to meet the unique needs of small- to mid-size workgroups, Canon's imageRUNNER C1335iF/C1325iF models deliver high-quality output and color scanning combined with sending capabilities that are easy for anyone to use. These devices handle a number of paper types and sizes — including both Letter and Legal.

So rather than having to choose between a single-function printer and an MFP with features you don't need, Canon's imageRUNNER C1335iF/C1325iF Series includes just the right mix of performance and productivity in a configuration that fits your requirements.

Dependable performance

The imageRUNNER C1335iF/C1325iF Series provides out-of-the-box productivity for users to achieve fast output and color scanning. Productivity is paramount, which is why the Series has been built to last with low maintenance.

Small size, big productivity

Numerous capabilities in a compact size make Canon's imageRUNNER C1335iF/C1325iF Series an ideal choice for small offices and departments. Innovations in print engine design and document feeding can help save space while unleashing workflow productivity.

Compact yet powerful

Canon's imageRUNNER C1335iF/C1325iF Series has ample RAM, built-in Ethernet, and USB 2.0 connectivity. Each system also provides proven Canon performance for handling concurrent print, copy, scan, fax, and send jobs. Supported Send functions include SMB, FTP, E-mail, and G3 fax.

Spend less time loading paper with standard 550-sheet paper cassettes that automatically detect paper size. There is also the option to add one-tier or three-tier cassettes for up to a 2,300-sheet paper capacity.

Intuitive interface

The imageRUNNER C1335iF/C1325iF Series features a 3.5" QVGA color touch panel that enables both touch operations and flick operations. From the first touch, users will appreciate its ease of operation and responsiveness, while business owners can appreciate employee productivity.

Color imageRUNNER C1335iF/C1325iF

A compelling solution for your document workflows. Brilliant, compact productivity that's easy to use.

Mobile print convenience

In today's offices, the ability to send a document to print from your smartphone or tablet should be simple and straight-forward. The imageRUNNER C1335iF/C1325iF Series provides a comfortable mobile printing environment for your office that supports both Mopria™ and Apple® AirPrint™.*

Enhanced security and authentication

Canon has provided the ability to limit access to the system and its features to only authorized users. To further enhance secure access, the imageRUNNER C1335iF/C1325iF Series per-forms all its powerful functions without an internal hard disk drive, which helps eliminate concerns over confidential data retained on the MFP.

Flexible, high-quality printing options

The imageRUNNER C1335iF/C1325iF Series can output crisp documents in brilliant color with 600-dpi accuracy. Each sys-tem includes support for Canon's innovative UFR II LT, PCL 5e/6, and PostScript 3 print technology.

Fast, double-sided color scanning

Quickly scan or copy a stack of single- or double-sided originals for crisp, clear reproductions using the standard 50-sheet Du-plexing Automatic Document Feeder. Boasting a sophisticated color scanning unit, the imageRUNNER C1335iF/C1325iF Series easily captures high-quality images with a deep depth of field, ideal for scanning books or wrinkled documents.

Document distribution

Help increase your productivity with color sending capabilities that enable the Canon imageRUNNER C1335iF/C1325iF Series to electronically distribute documents or save them to removable media.

Send. Easily distribute documents to e-mail, fax, SMB, and FTP destinations, and even facilitate delivery to back-end applica-tions and document management systems at the touch of a button.

Fax. Now you can send and receive faxes directly at the imag-eRUNNER system. To help save time and paper costs, you can even send and receive paperless faxes at your networked com-puter.

Eco-Conscious

As an industry leader in environmental responsibility, Canon is a partner to help achieve your green-conscious goals. The imag-eRUNNER C1335iF/C1325iF Series is remarkably energy effi-cient, using approximately 1W of electricity in Sleep Mode. From responsible manufacturing and smart transportation to reduced energy use and long-life consumables, Canon is dedicated to being a friend to both the environment and your budget.
